Description:

From Booklist This debut novel, written when the author was 18 years old, takes readers on an uncompromising journey through one girl's grief over the suicide of her best friend. Seventeen-year-old Ella was with Amy the night she jumped to her death. But Ella cannot remember the events, and she feels her friends Mark and Petal are hiding something. The teens have started skipping classes to play Pick-Me-Ups, a game which involves jumping from dangerous heights and relishing the rush of the fall. Each time Ella jumps she is able to remember a little bit more. As seen through Ella's eyes, Amy was a troubled girl who died inside long before her suicide made it official. Ella has her own issues and her development as a character—from rudderless and self-destructive to a more introspective, honest version of herself—is the greatest strength of this book. There are some devastating reveals throughout which keeps the story compelling without feeling overdone. Some may be turned off by the expletive-filled text, but anyone who sticks with Ella till the end will come away satisfied. — Kara Dean, Booklist Oct. 2012
